

# AutoPlot

Generate plots automatically from Excel data -----“Just press a Button”

## Installation

Click [here](http://l://github_repos/AutoPlot/Installation) ([http://l://github\\_repos/AutoPlot/Installation](http://l://github_repos/AutoPlot/Installation))

## Design Model

## Examples

Click [here](http://l://github_repos/AutoPlot/examples) ([http://l://github\\_repos/AutoPlot/examples](http://l://github_repos/AutoPlot/examples))

## Troubleshooting

- **Date:** There could be a problem with Date format, which might have happened during data entry.
- **Control limit:** If the chart is not updated till the last row of data, then please check for missing data in the Control limits parameters for that row. This is also applicable for any missing data not shown in the chart.
